10/01/2019

# Content of webinar

- Introductions (2mins)
- House keeping (3mins)
- Overview of the WS2 P5 consultation (5mins)
- A walk through of the consultation document (30mins)
- Q and A session (20mins)

# Introductions

- Presenting – Peter Aston, WPD, Open Networks Workstream 2 member, lead for WS2 Product 5
- Panel – Kyle Murchie, SSEN, Open Networks Workstream 1 and 2 member, lead for WS1 Products 10 and 11
- Host – Webster Greenleaf, ENA

# House keeping

- Time of webinar: 15:00 – 16:00 – only 1 hour
- We will present material for about 30 mins
- We will make these slides available
- You can submit written questions via the chat function
- If we can't answer all the questions during the time available, we will answer afterwards.
- We will provide a summary of all questions and answers following the webinar

# Overview of the consultation 1

- The Open Networks Workstream 2 Product 5 team has been reviewing Interactivity and Queue Management practices during 2018
- On 30<sup>th</sup> November 2018, the ENA published a consultation on Interactivity and Queue Management -  
<http://www.energynetworks.org/electricity/futures/open-networks-project/open-networks-project-stakeholder-engagement/public-consultations.html>
- The consultation closes on 25<sup>th</sup> January 2019 and responses can be issued to [opennetworks@energynetworks.org](mailto:opennetworks@energynetworks.org)

# Overview of the consultation 2

- The consultation focuses on current interactivity and queue management practices.
- The questions seek views on some of the main differences in approach between network companies.
- The output will be a process guide in Q1 2019
- A number of gaps in process have been identified and two products will be taken forward in 2019 to develop new processes, one for Interactivity and one for Queue Management

# Walk through of consultation document
