

07<sup>th</sup> August 2009

Dear Colleague,

**Licensed Distribution Network Operator (LDNO) “portfolio” billing under the CDCM**

I am writing on behalf of Workstream 2 of the Common Methodology Group (CMG) to launch a consultation process for our proposed method to bill LDNO embedded networks under the Common Distribution Charging Methodology (CDCM).

The consultation consists of two elements: the consultation paper itself and a draft code of practice. These are done in the context of the LDNO tariff structure which we outlined in our June consultation.

The consultation process is open for six weeks – closing on Friday 18<sup>th</sup> September 2009. Please send your responses or any queries to [CDCM@energynetworks.org](mailto:CDCM@energynetworks.org).

Regards

María Isabel Liendo
