

LoM Protection Support Organizations

The list of contractors / consultants has been collated from replies provided as a response to an expression of interest request and is intended only as a source of reference for connected generation customers seeking external support in making Loss of Main protection settings changes.

ENA and its members accept no liability or responsibility for the competence of any contractors / consulted listed below and do not endorse or make preference to any of the companies or individuals listed below. ENA and its member companies in publishing this directory provides no warranty or support of any kind and any loss, damages or other incurred from any work undertaken by them is the sole responsibility of the parties entering into contract with them.

It is the responsibility of the connected generation customer or their representatives to conduct their own assessment as to the suitability of these contractors/consultants for the work required.
