

Benefit Tracker Dashboard Summary

Connections Delivered – All DNOs and TOs have connected nearly **9.7GW** of capacity within April 23 to March 24. With **3.36GW** already connected this year since April 24.

*All connections recorded are >= 1MVA/MW, connections made below this threshold are not included in this total.

Connections Accelerated – Through actions set out in the Connections Action Plan, connections are being accelerated to connect to the networks this includes; Technical Limits, Non-firm interim offers for Storage at Transmission.

Capacity released – Through Distribution modelling assumptions for storage connections, capacity which would have previously been utilised by Battery Storage is now able to be utilised for other connections due to a change in access rights. This has seen over **50GW** released through offers being sent out and **23.6GW** of accepted offers.

Capacity Removed – Through ongoing robust queue management at both Transmission and Distribution, we have removed over **10GW** of “Zombie projects” from the queue.
