

## ENA Open Networks Project Advisory Group Meeting Agenda

**Thursday 08 July 2021**

ENA's Open Networks Project is a collaborative project managed by ENA on behalf of its electricity Transmission Network, Distribution Network and System Operator members. We are seeking to engage stakeholders through continuing avenues of advice, review and information dissemination to a broad range of groups.

This meeting will be held over MS Teams. The first section of the meeting will be for project information and updates from the Open Networks team and wider ENA groups. This will be followed by detailed breakout sessions on the products below.

To join this meeting, you can use the MS Teams link or details below:

**Join on your computer or mobile app**

[Click here to join the meeting](#)

**Or call in (audio only)**

[+44 20 3855 5885,,319421959#](tel:+442038555885319421959)

Phone Conference ID: 319 421 959#

We will be starting promptly at **9.30am**. As part of this meeting, we will be conducting breakout sessions on the products to gather your input and views to inform development work.

We are inviting Advisory Group members to volunteer to provide their feedback at the meeting on particular materials. If you are interested in presenting your views, then please contact [Emily Jones](#) with your contact details and the topic you would like to provide feedback on.

The intention of the bulk of this meeting is to split the Advisory Group into two groups to discuss product materials. Each break-out group will discuss one of the topics below for 30 minutes. We will have two of these sessions so each breakout group will discuss all material in turn. The materials to be presented in each breakout session will be:

### **Session A**

**WS1A P5 - Primacy Rules for Service Conflicts** - Matt Rivett (*NG-ESO*)

This product aims to develop a set of principles and rules for determining priority when both transmission and distribution networks wish to utilise flexibility services from the same service provider at the same time. Work started on this product in June and we are looking for stakeholder input to inform our early development work.

- Feedback on list of existing projects addressing these challenges, noting any projects not included
- Feedback on scenarios being considered

### **Session B**

**WS1B P6 – Distributed Energy Resources (DER) Visibility and monitoring** - Odilia Bertetti (*UPKN*) and Avi Aithal (*ENA ON Technical Lead*)

This product will define the needs cases for DER visibility and monitoring for the ESO and DNOs under a range of uses cases; define the functional specifications for these use cases; use these to derive a cost-benefit analysis framework for DER visibility and monitoring against the use cases; and undertake the cost-benefit analysis.

- Feedback on areas of discussion
- Feedback on the breadth of use cases
- Feedback on impact and volume assessment

Item	Start	End	Time	Item	Lead
1	09:30	09:35	5	<u>Welcome / Introductions</u> <ul style="list-style-type: none"> <li>• General Housekeeping</li> <li>• Objectives of the day</li> <li>• Running order of the day</li> </ul>	Andy Wainwright (NG-ESO)
2	09:35	09:45	10	<u>Introduction to Project MERLIN</u>	Rhys Williams (SSEN)
3	09:45	09:55	10	<u>Data &amp; Digitalisation Steering Group Update</u>	Elena Theodorou (ENA Data Lead)
4	09:55	10:05	10	<u>Communications Activity</u>	Emily Jones (ENA ON Communications Project Lead)
